Royal Title Services Launches Indiana's First Mobile Closing Unit

Vision Brings Company Services Directly to Clients

INDIANAPOLIS, Indiana, October 12, 2009 –

The title insurance industry is perceived as dull and boring – that's all about to change! We are passionate about redefining and re-branding this industry under the Royal Title Services' banner. The conventional wisdom in our industry is not in sync with the market, so we're forging our own path. The Mobile Closing Unit is another example of our commitment to providing unique products and services in anticipation of client's needs.

Royal Title Services, an Indiana based title insurance agency specializing in residential and commercial real estate transactions, introduced Indiana's first Mobile Closing Unit. The Mobile Closing Unit was converted to include a fully functional mobile office including computer, printer, scanner, and wireless voice and data capabilities.

The Mobile Closing Unit is another innovative showpiece for the Company as it continues to break new ground in client services. Capable of making real-time changes to time-sensitive closing documents on-site, the Mobile Closing Unit is also able to draw upon the wealth of resources at the home office, essentially bringing all of Royal Title Services directly to the client.

We were considering how to create a presence in other geographical markets without diluting our vision for how title services should be delivered. This is a way to bring the full resources of our Company to the door of our clients without compromising our commitment to outstanding service.

Royal Title Services, Indianapolis, Indiana.- a statewide Indiana land title insurance agency specializing in residential and commercial real estate - owned by Susan R. Jones and Jennifer E. Jones.

- Land Title Insurance
- Real Estate Closings
- Statewide Services
